

Sprint 3 Report

Product Name:

FilterShare

Team Name:

Team 16

Date:

07/25/16

Actions to Stop Doing:

- None

Actions to Start Doing:

- Get ready for final presentation
- Optimize algorithm which filters images on sharefilter activity

Actions to Keep Doing:

- good communication through slack
- managing scrum board & burnup chart
- finishing tasks on time

Work completed/not completed:

Goal: Be able to share photos with custom photo filter and apply shared filters.

User stories:

1. As a social media user, I want to be able to find filters other people share so that I can make better photos.
 - Design shared filters page. → Done (Greg Biles)
 - Display shared filters using continuous scroll. → Done (Jaemin Shin)
 - Implement outputting shared filters on backend. → Done (Josh Bernfeld)
 - Modify API connector between the application and the server in frontend. → Done (Hyoungseok Kim)
 - Implement pagination on backend. → Done (Josh Bernfeld)
 - Test the application. → Done (Hyunsung Cho)
2. As a user, I want to understand the functions of the application easily so that I can make the best use of it.

- Implement the user tutorial for the initial use of the application. → Done (Hyoungseok Kim)

Work completion rate:

Total number of user stories completed = 2

Total number of estimated ideal work hours completed = 56 hrs

Total number of days = 7 days

User stories/day = 0 or 1

Ideal work hours/day = 6 hrs

Average user stories/day = 0.5

Average ideal work hours/day = 8 hrs

Burnup Chart:
